

Environmental Impact Report

52 MATURE TREES

This represents enough saved timber resources to produce more than 642,476 thousand sheets of newspaper!

1417 GALLONS OF OIL

This represents 20 barrels of No.2 fuel oil, which provides enough energy to heat and cool more than 7 homes for one year!

12,546 KW-HRS OF ELECTRICITY

This is enough power to fulfill the annual electricity needs of more than one home!

ST. Paul's School
Recycled 3.06 tons
of Singlestream
Recyclable Material
from September 2015 to April 2016

73 GALLONS OF GASOLINE

This represents enough gasoline for Americans to drive more than 2,043 thousand miles!

10 CUBIC YARDS OF LANDFILL AIRSPACE

This represents enough airspace to fulfill the municipal waste disposal needs for a community of 8.6 Americans for one year!

The recycling of this quantity of packaging and raw materials avoided their manufacturing and disposal, thereby conserving ¹:

21,420 GALLONS OF WATER

This represents enough fresh water to meet the daily fresh water needs of more than 280 Americans!

¹ Each ton of fiber recycled conserves: 17 mature trees; 463 gallons of oil; 24 gallons of gasoline; 4,100 kw-hrs of electricity; 7,000 gallons of water, 3.5 cubic yards of landfill airspace. Sources: U.S. Environmental Protection Agency, Institute of Scrap Recycling Industries.
