

EARLY CHILDHOOD

At Saint Paul School, our Early Childhood Programs strive to foster a love of God and a love for learning in our youngest students. Through hands-on experiences, young children are encouraged to learn by exploring the world around them through a balanced program of structured, guided activities and free play opportunities.

Preschool for 3-Year Olds

Saint Paul School's Preschool program is based in our belief that each child is a unique and special child of God. The program is designed to foster the spiritual, physical, cognitive and social-emotional development in our little ones. Our curriculum provides the structure and guidance children need to grow in a fun, safe, and nurturing environment. Children engage in multi-disciplinary experiences to explore and learn about the world around them by playing and interacting in the classroom. They are introduced to literacy and numeracy readiness exercises through the Opening the World of Learning (OWL) Language Arts Curriculum.

The Preschool program is staffed by a certified teacher and an experienced paraprofessional.
