

I'm so grateful that I went to Saint Paul School. The attention and support of my teachers and the challenging academics prepared me perfectly for honors coursework in high school and achieving the honor of National Merit Commended Scholar. At Saint Paul's we were taught to work hard and how to manage our time, so that we could more easily balance academics, service-work and sports in high school. My ten years at Saint Paul School gave me great preparation to excel in my academics and embrace leadership opportunities within campus ministry and as Captain of NDA cross country and track teams. It also gave me great memories with friends that I will cherish forever!"

Sarah Kerrigan, Saint Paul School '12, Notre Dame Academy '16

"At BC High, we read applications and enroll students from over 200 middle schools in eastern Massachusetts each year. Saint Paul School is one of the few schools that we can be completely confident in the depth and breadth of the preparedness of their graduates. It is easily one of the best four or five Catholics schools that I have seen, as defined by the quality of the applications of their 8th grade boys. Once at BC High, their graduates are successfully involved in all facets of our community-in the classroom, on the stage, on the fields, and in the community. Additionally, the parents of our Saint Paul School students are among our most active and supportive of our mission. We value our relationship with Saint Paul School and its families and look forward to enhancing this connection of shared values in the years to come."

Michael J. Brennan, former Vice Principal, Boston College High School, Boston

"I am grateful to Saint Paul School for the positive influence it had on my early development academically, spiritually, morally and ethically. The nurturing and disciplined environment provided a solid foundation for my success in high school at St. Sebastian's, in college at Boston College and in my professional career in the NHL."

**Brian Boyle, Saint Paul School '99, St. Sebastian's School '03, Boston College '07
Professional Hockey Player, Tampa Bay Lightning**

"We are so happy with the PreKindergarten at Saint Paul School and how wonderful this program is for our daughter, Beth. Our daughter loves the school – and even became upset on a recent Saturday when we shared that it wasn't a school day! She looks forward to going to school and feels nurtured, cared about and encouraged. We are so heartened by all she is learning. Most recently when Beth and a school friend were together and coloring, we heard them singing a song about "two little ears to hear God's love..." ...about 20 times! Saint Paul School really is such a special place for our daughter to grow and learn."

Jennie and Lars Samoska, Saint Paul School PreKindergarten Parents

"As a Saint Paul School alumna (class of 1992), I am now proud to send my children to school there. Saint Paul School's combination of educational excellence rooted in Catholic teaching was a determining factor in our decision to send our children to the same school at which I had such a positive experience. I received an excellent education at Saint Paul School and learned from teachers whose enthusiasm for learning and knowledge of their subjects stayed with me throughout the rest of my education. The friends my siblings and I made at Saint Paul School continue to be in my life today, and I look forward to my own children developing those lifelong bonds."

**Mary Elizabeth Puzo Bailey, Saint Paul School '92, Notre Dame Academy '96 (Valedictorian),
Boston College Honors Program magna cum laude '00, M.A. in History Boston College '01**
